

APP Rationale Form

For the educational purchase of ipod/ipad apps...

(Please complete and submit this form to the technology office, through Heather Hunt.)

Teacher Name: Suzanne Ciminesi	Building: ALES
Grade Level and Content Area: 5th Grade Math and Science	
Name and Cost of App: Kahoot Free (Mr. Allen has offered to let me use his cart of i-pads.)	
URL of App, if available: kahoot.com	
Brief description of the App: Kahoot is a team game format that allows teachers to create questions that appear in a game show format. It is highly engaging. Students can work individually or as teams.	
Plans for classroom use of the App: Daily 5-minute reviews of content. Team building.	
Connection to NYSED P-12 Common Core Learning Standards &/or NYS Teaching Standards: (see http://www.highered.nysed.gov/tcert/resteachers/teachingstandards.html or http://engageny.org/teachers/) Standard IV of NYS Teaching Standards--Kahoot is an engagement tool Standard V of NYS Teaching Standards--Kahoot allows for a quick formative assessment	
Evidence that this App has worthwhile classroom value: (include specific students groups who would use it, other contents areas where it could be used, access to a demo or tutorial on the App, etc) I've been using it on the laptops and students LOVE it. I'd like to have it on the ipads because it should make using the program easier. Students won't need to go to the effort of logging on to a laptop and waiting for it to boot up. This can make a 5 minute review take 10 minutes or more. This can be used in any content area. I've already used it in math and to review the code of conduct.
