Dear Parents,

In order to help improve your child's skills on their instrument some practice at home is needed. We have rehearsals/Band on Mondays, Tuesdays and Thursdays. In order to help facilitate the long stretch of time between Thursday and Monday we are asking your child to practice 15 minutes on at least three of those days. They may combine the time in one sitting but a little time spread out is better for their muscle memory and reading skills. To help us keep track, I ask that the student fills out the minutes they have practiced in the space provided above and have you sign it. Please help me in encouraging this and look for the instrument to come home on Thursday nights. Please also help remind them to bring it back on Monday. They certainly are more than encouraged to practice longer if they wish too! Thank you.

Sincerely,
Mr. Fancher
