

List 3 places that you find fractions.

carpentry → measuring  
math class  
kitchen  
sewing

## FRACTIONS

$\frac{\text{part}}{\text{whole}}$

??? What is a fraction???

The "top" is called the: numerator

The "bottom" is called the: denominator

There are 3 types:

1. part of a whole
2. # of items vs total #
3. division problem

### Equivalent Fractions

$$\frac{1}{2} = \frac{2}{4} = \frac{4}{8} = \frac{8}{16}$$

$$\frac{2}{3} = \frac{4}{6} = \frac{8}{12} = \frac{24}{36}$$
