Brief description of the App: Artsonia is an online portfolio space for children's' art. Parents are given a unique code to view the work of their child/children. Names are not published online to protect the identities of the children. Artsonia is also a fundraising app. Parents may order products with their children's' art printed on it, and the teacher receives a portion of those proceeds to be used on art supplies, materials, and equipment for their classrooms. I like to use the space to photograph, edit, and organize student work. Students enter artist statements about their pieces, too. I also use the pictures I organize in Artsonia to enter student work in competitions.

Evidence that this App has worthwhile classroom value:
(include specific students groups who would use it, other contents areas where it could be used,
access to a demo or tutorial on the App, etc) I plan to teach students to use the app to photograph,
edit, and upload their own work and artist statements for each piece as a part of their portfolio and
display quarterly grade.
