Brief description of the App: This app helps the students with text-to-speech. It will read the material to the student so they are then able to have it read to them .	
Plans for classroom use of the App: If a student wants the text read to them and are ahead of the other students, they are able to work at their own pace. It will also re-read the material to them.	
Connection to NYSED P-12 Common Core Learning Standards &/or NYS Teaching Standards: (see http://www.highered.nysed.gov/tcert/resteachers/teachingstandards.html or http://engageny.org/teachers/)	
Evidence that this App has worthwhile classroom value: (include specific students groups who would use it, other contents areas where it could be used, access to a demo or tutorial on the App, etc) We have used the app in the past, but our Ipads are out dated, and can't be downloaded on them, so the students were using our own personal devices to help them.
